## PROFESSIONAL SUMMARY

Master's graduate in Computational Science from Bandung Institute of Technology (ITB) with strong experience in AI and software engineering. I leverage Python, JavaScript, and databases (SQL and NoSQL) to develop AI-powered web applications. My goal is to apply my technical background to solve real-world problems.

## EDUCATION

**Bandung Institute of Technology (ITB)** Bandung, Indonesia
Master of Science in Computational Science, 3.97/4.00 Feb 2025 – Aug 2026

**Bandung Institute of Technology (ITB)** Bandung, Indonesia
Bachelor of Science in Physics, 3.33/4.00 Aug 2016 – Apr 2021

## PROFESSIONAL EXPERIENCES

**PT. Steradian Data Optima** Jakarta, Indonesia
*Data Scientist* Aug 2023 – Jan 2024

- Developed a scalable backend using Django for the data analytics web application.
- Integrated and optimized machine learning models to power core functionalities of the web application.
- Automated data workflows by implementing robust Python ETL pipelines seamlessly integrated with the web application.

**Al-Bahjah Islamic Senior High School** Cirebon, Indonesia
*Physics Teacher* Apr 2022 – Jun 2023

- Developed a physics curriculum for senior high school students, focusing on analytical and conceptual mastery.

## ORGANIZATIONAL EXPERIENCES

**ITB Career Center** Bandung, Indonesia
*Titian Karier Terpadu ITB Assistant* Apr 2025 – Oct 2026

- Managed visitor flow and maintained site security to ensure a safe and seamless experience during the event.
- Served as the primary point of contact for Garena Indonesia, delivering company overviews and effectively resolving participant inquiries.
- Facilitated the end-to-end administration of corporate written selection tests, ensuring a smooth and structured examination process.
- Delivered comprehensive event and company information to visitors, serving as the frontline contact to streamline navigation and address inquiries effectively.

## BOOTCAMP

**Korea-ASEAN Digital Academy (KADA)** Cikarang, Indonesia
*Participant* Jun 2025 – Aug 2025

- Completed 250 hours of intensive training covering Frontend Development (HTML, CSS, React), Backend Development (Node.js, Express.js, MongoDB), Basic of Data Analysis (Data cleansing, Visualization), Cloud Service Utilization (AWS), DevOps (CI/CD, Containerization), and UI/UX.
- Developed a web application using the MERN stack and integrated the Gemini API to power AI-driven features.

## TECHNICAL SKILLS

**AI Engineering:** Machine Learning (Scikitlearn), Deep Learning (Tensorflow, PyTorch), LLM (LangChain, Gemini).

**Frontend:** HTML, Tailwind CSS, React, JavaScript, TypeScript.

**Backend:** Python (Django, FastAPI), Node.js (Express.js).

**Databases:** SQL (PostgreSQL, MySQL), MongoDB.

**DevOps, Cloud, & Tools:** Git, Postman, Linux, AWS, Docker, Power BI.
